

Welcome to VOZ!

Thank you for selecting VOZ as your communications provider.

Getting Started

Your **Linksys SPA2102** Analog Telephone Adapter Kit includes the following items:

- Analog Telephone Adapter
- One (1) Network Cable
- Power Adapter

Before you begin, you will also need:

- A High-Speed Internet connection (cable/DSL/wireless/other)
- A Regular analog touch-tone telephone or FAX machine

Step 1: Activate your VOZ account.

If you already have subscribed to VOZ, you can skip to Step 2. Otherwise, visit www.vozpr.com or call 1-787-723-1100 to subscribe.

Step 2: Connect your SPA2102 Analog Telephone Adapter

1. Turn off all network devices, including your broadband modem and PC.
2. Connect your analog telephone or fax to the SPA2102 PHONE 1 port. If you have a second VOZ line, repeat with PHONE 2 port.
3. Connect one end of the Ethernet cable provided with this kit to the SPA2102's ETHERNET port. Connect the other end of the cable to your PC.
4. Connect one end of a different Ethernet cable to the SPA2102's INTERNET port. Connect the other end of the cable to your broadband modem.
5. Turn on the broadband modem
6. Connect the included power adapter to the SPA2102's power port, and plug the power adapter into an electrical outlet. The Power LED on the front panel will light up as soon as the SPA2102 powers on.
7. Turn on your PC. **NOTE: Make sure your PC is setup to obtain an IP address automatically. For more information, refer to Windows Help.**
8. Pick up the telephone. If you have a dial tone, CONGRATULATIONS! You have successfully setup your VOZ service. If not, please call VOZ Customer Service at 787-723-1100 or email support@vozpr.com
